Index to Volume 11, 1992

(No. 1 pp 1–68; No. 2 pp 69– 143; No. 3 pp 145–208; No. 4 pp 209–261)

Adverse effects

of antiarrhythmic drugs—proarrhythmia/non-cardiac effects 173

sulphasalazine/colitis and rheumatic polyarthritis treatment 93

Adverse events

counterfeit medicines, editorial 3

Aluminium

toxicity/daily exposure, medical uses 123

Animal studies

toxicology regulations, International conference on Harmonization, safety evaluation 5

Antiarrhythmic drugs

adverse effects—proarrhythmia/non-cardiac effects 173

Benign intracranial hypertension

drug-related—review of literature 41

Breast cancer

correlations with breast cancer incidence 149

hormone replacement therapy in post-menopausal women, editorial 147

incidence, correlations with hormone replacement therapy 149

Carcinogens

and genotoxins, use of non-clinical testing strategies—review 111

Chinese restaurant syndrome

causative role by monosodium glutamate 19

Clinical research

and patient safety, effects of Fraud/editorial 211

fraud, General Medical Council legal procedures/patient safety 241

Colitis

and rheumatic polyarthritis/sulphasalazine treatment/adverse effects and pharmacokinetics 93

Counterfeit drugs

health implications, quality control and certification/developing countries 59

Counterfeit medicines

adverse events, editorial 3

Derek Dunlop

famous names in toxicology 1

Developing countries

counterfeit drugs: health implications, quality control and certification 59

Donald Hunter

famous names in toxicology 1115

Drug action

performance impairment/experimental design 193

Editorial

Fraud in clinical research/patient safety 211

hormone replacement therapy risk in post-menopausal women—hormone replacement therapy 147

Elderly patients

therapeutic problems with tuberculosis, isoniezid/rifampicin/pyrazinamide/hydrazine 13

Event monitoring

appraisal of spontaneous reports/post-marketing period, safety evaluation of new drugs 213

Famous names in toxicology

Derek Dunlop 1

Donald Hunter 1115

John Morrison Barnes 209

Mateo Orfila 69

Fraud

in clinical research—General Medical Council legal procedures/patient safety 241

in clinical research/patient safety, editorial 211

General Medical Council
legal procedures, fraud in clinical research, patient safety 241

Genotoxins
and carcinogens, use of non-clinical testing strategies—review 111

Hormone replacement therapy
breast cancer risk in post-menopausal women, editorial 147

Hydrazine
isoniezid, rifampicin, pyrazinamide/tuberculosis, therapeutic problems with elderly patients 13

Hyperlipidaemia
adverse effects and toxicology of hypolipidaemic drugs 71

Hypolipidaemic drugs
adverse effects and toxicology/hyperlipidaemia 71

International Conference on Harmonization
safety evaluation using animal studies/toxicology regulations 5

Isoniezid
rifampicin, pyrazinamide, hydrazine/tuberculosis, therapeutic problems with elderly patients 13

John Morrison Barnes
famous names in toxicology 209

Legal procedures
fraud in clinical research, patient safety/General Medical Council 241

Mateo Orfila
famous names in toxicology 69

Monosodium glutamate
causative role, of, Chinese restaurant syndrome 19

Non-clinical testing strategies
applied to genotoxins and carcinogens—review 111

Performance impairment
by drug action/experimental design 193

Post-marketing period
appraisal of spontaneous reports, event monitoring/ safety evaluation of new drugs 213

Pyrazinamide
isoniezid, rifampicin, hydrazine/tuberculosis, therapeutic problems with elderly patients 13

Quality control
counterfeit drugs: health implications, certification, quality control 59

Rheumatic polyarthritis
and colitis/sulphasalazine treatment/ adverse effects and pharmacokinetics 93

Rifampicin
isoniezid, pyrazinamide, hydrazine/tuberculosis, therapeutic problems with elderly patients 13

Safety evaluation
International conference on Harmonization, toxicology regulations using animal studies 5
of new drugs—spontaneous reports, event monitoring, post-marketing period, appraisal 213

Spontaneous reports
event monitoring/safety evaluation of new drugs/post-marketing period, appraisal 213
of taste loss and taste perversion/drug induced, literature review 229

Sulphasalazine
adverse effects and pharmacokinetics/colitis, rheumatic polyarthritis treatment 93

Taste loss

taste perversion—drug induced and spontaneous reports, literature review 229

Taste perversion

taste loss—drug induced and spontaneous reports, literature review 229

Toxicity

of aluminium/daily exposure, medical uses 123

Tuberculosis

therapeutic problems with elderly patients, isoniezid/rifampicin/pyrazinamide/hydrazine 13

Contents of Volume 11 1992

Spring 1992

Sir Derrick Dunlop

Editorial

Implications of recommendations from the international conference on harmonization (ICH) for the safety evaluation of new medicines involving animal studies for the pharmaceutical industry

Therapeutic problems in the management of elderly patients with tuberculosis

The Chinese restaurant syndrome: a reappraisal of monosodium glutamate's causative role

A review of the literature on benign intracranial hypertension associated with medication

Counterfeit drugs: implications for health

Spring book reviews

Summer 1992

Famous names in toxicology: Mateo Orfila

Adverse effects of the lipid-lowering drugs

Adverse effects of sulphasalazine

A review of the ability of non-clinical testing strategies currently applied to drugs to detect known human carcinogens

Toxicity of aluminium: a historical review, part 1

Summer book reviews

Autumn 1992

Famous names in toxicology: Donald Hunter

Editorial

Breast cancer risk and the administration of human hormones: part 1 — hormone replacement therapy

Adverse effects of antiarrhythmic drugs

Drug-induced impairment of performance

Autumn book reviews

Winter 1992

Famous names in toxicology: John Morrison Barnes

Editorial

An appraisal of spontaneous adverse event monitoring

Drug-induced disorders of taste

Fraud and misconduct in clinical research: is it prejudicial to patient safety?

Winter book reviews
